INTRODUCING!
Skin You Love to Touch
from
ClayHealing.com ,
the original clay-based cosmeceutical
company.

What is Living Clay?

It is Mother Nature's **NATURAL, SAFE, GENTLE** substitute for Botox. It is a natural drawing agent and detoxifies through the skin by pulling out impurities, toning, purifying and detoxing.

What makes Living Clay products so special?

LIVING CLAY and TENDER LOVING CARE:

*All of our products contain Living Clay that transforms our rich lotions and creams into a magical, **ALL-DAY**, luxurious experience of skin you "LOVE TO TOUCH!" Your skin will retain a velvet-like softness morning to night with one application. I promise!*

How does it work?

That's the mystery of Living Clay. It merely holds the softness to the surface of your skin. To use it is to **LOVE** it and to **CRAVE** it.

AND that's not all!

It surpasses all other clays and muds for facials and body wraps. Living Clay molecules adsorb and absorb. When you wash off the clay, off come the impurities with it, leaving behind "**Skin You Love to Touch.**" Because of this unique property it tightens, firms, tones and exfoliates the skin all at the same time.

Want a Love AFFAIR????...with your SKIN? Experience Living Clay products for "**TOUCHABLE SKIN**" that your friends will **ENVY** and **HE** will love to **CARESS**.

WARNING!!!!

LIVING CLAY products are strongly

ADDICTIVE. You will never want another skin care product to touch your skin again. EVER.

Special caution is advised when using our handmade cold-processed soaps. You will **NEVER AGAIN** settle for your old best bar of soap.
